

to be 9,893,292 gross tons, or nearly 80,000 tons more than the total for the year of 1899, in which 9,813,292 tons were shipped. The figures by range for 1899 are as follows: (Gross tonnage), 2,573,980; Marquette, 2,479,960; Menominee, 2,281,499; Vermilion, 1,167,650; Muskegon, 4,750.

This is the first year in the history of the Lake Superior region in which the Marquette range has not had first place. That the year's production should have exceeded that of 1899 is a surprise to iron men, as it has not along been considered that it would drop some what below the greatest record heretofore. The all-rail shipments for the year were 563,102 tons. The Norri and Chapin mines led the column, the former sending down 955,216 tons and the latter 600,000 tons.

RESOLVED MECH.

Federation of Labor Would Have Many Things Corrected at Once.

MUSKEGON, Jan. 12.—The Michigan Federation of Labor today took action looking towards the enactment of an eight hour work day, and at least shorter hours for women and children than at present in vogue. It was decided to ask the appointment of a union man for labor commissioner; for the passage of a law making approval by people of all legislation necessary, before the same became operative and to invite the co-operation of farmers' societies in labor day celebrations and affiliation with the federation to give greater effect to union labor. A resolution carried that it was contrary to the best interests of unionism for union men to belong to the state militia.

Boycotts were endorsed against Fleischmann & Company, the Michigan Catholic and United States School and Supply company. Independent political action and taxation of church property were endorsed. It was decided to ask the legislature to make the first Monday in September a legal holiday, and to secure at the coming revision of the state constitution abolition of the senate; a law for caucus reform, and state inspection of mines, factories, etc. The employment of state convicts on material for their own use and for work on state roads was approved.

GOES AHEAD.

Detroit Utilizes Chicago Architects for Her New Chamber of Commerce.

CHICAGO, Jan. 12.—Detroit is to have a chamber of commerce and Chicago is to supply the architect to plan the building, the work on which is to be commenced as early as possible. Today a committee consisting of J. D. Hawks, H. M. Godfrey, Bruce Goodfellow, A. Boutelle and E. C. Van Buren arrived at the Wallington hotel and before they returned they will probably select the gentleman to whom will be entrusted the designing of the contemplated structure, which is to cost in the neighborhood of \$500,000.

Darius Cole Dead.

DETROIT, Jan. 12.—The veteran vessel owner, Capt. Darius Cole, died at his residence, No. 125 Cass street. He had for some time suffered from neuralgia of the heart, a more than usually severe attack of which finally carried him off. He was partly paralyzed several months ago, and did not afterward regain his previous health. He did not entirely give up before he was confined to the house. He sat up the day before his death, and was fully conscious to the end.

Vanishing Painter.

DETROIT, Jan. 12.—Henry Mellus, a painter residing at 130 Champlain street, mysteriously disappeared on Tuesday, January 3, and has not been seen or heard of since. Mr. Mellus had been complaining of severe headaches for several days, and in consequence had not gone to work. Last Tuesday, however, he felt sufficiently well to resume his labor, and at 2 a. m. started for his place of employment. This was the last seen of him by his family.

Killed a Conductor.

DETROIT, Jan. 12.—Shortly after noon a switch engine jumped the track at the Eureka turn works switch at Wyandotte and rolled into the ditch. Conductor Albert E. Shipman, who happened to be on the engine, was terribly mangled and died before a doctor could be summoned. He had been in the employ of the Michigan Central since 1876, lived on Dix avenue, Detroit, and leaves a wife and grown up son.

Another Suspect Arrested.

DETROIT, Jan. 12.—A man who gives his name as O'Hagan is locked up at the Chicago street station on suspicion of being Daniel Sullivan, the slayer of Clayton Loomis, the farmer, who was shot and killed on the Detroit River, January 1. He was arrested at the Detroit Grand Haven & Milwaukee junction yesterday afternoon by Special Officer Van Rusk, whose suspicions were aroused by the actions of the man.

This May Explain It.

Kalamazoo, Jan. 12.—Nothing has yet been heard of the missing bus man, Ruth W. Smith. It would appear from later developments that he did not leave his business in the best financial condition. The City National bank has attached the house and lot owned by him for a debt of \$5,315, and there is a \$5,000 mortgage on the place.

Again the Over-heated Stove.

Big Rapids, Jan. 12.—The residence of William Graham, in the third ward, was totally destroyed by fire early this morning. Only part of the contents were saved. The loss is about \$1,000; partly insured. An over-heated stove is supposed to have been the cause of the fire.

Lost Arms and Legs.

Muskegon, Jan. 12.—Hector Beaton, while crossing Indian lake, three miles west of Muskegon, was lost in a snow storm Sunday night. He was found Tuesday noon, badly frozen, and will probably lose arms and legs.

All alone, both in the way and in the way, it is said that it is a positive remedy. Hence it is said in this way. It is guaranteed to give satisfaction, in every case, or the money paid for it is refunded.

Dr. Pierce's Pleasant Pellets prevent and cure Sick and Bilious Headaches, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels. There is no element of danger, the cheapest, the most reliable. But all that would be nothing, if they were not also the best to take.

HE IS SINKING FAST

Blaine Had a Bad Turn Last Evening.

THE DOCTORS ARE RETICENT

They Say That It Was Not a Relapse, But Admit the Patient Weakens Rapidly.

WASHINGTON, Jan. 13.—Up to this hour, 2 a. m., the watchers on the outside heard nothing of any change in Mr. Blaine's condition. The light in the room occupied by the invalid was burning a little, being lower than usual at this hour of the night, but it was impossible to ascertain whether anyone inside was moving about or not, as the curtains were drawn, thus obstructing the view from outside.

WASHINGTON, Jan. 12.—Mr. Blaine is weaker tonight than he has been since he suffered the relapse two nights ago. His physicians called at 9 o'clock and remained in the sick room for forty minutes, during which time they made thorough examination of the patient and gave him some additional medicines. When they came out Dr. Johnston said that Mr. Blaine had not had a relapse at 7 o'clock as stated. He could not call it that.

There were complications, however, at this time, which had yielded to treatment readily, but from which the patient had not recovered except at the loss of strength. He was sleeping at 10:15 when the doctors left the house, but it was thought prudent for one of them to return. Dr. Hyatt would go back at 12 o'clock and then determine whether it was necessary for him to remain through the night.

Dr. Johnston Returns.

Dr. Johnston left with the understanding that he would not return unless Dr. Hyatt, when he came, thought Dr. Johnston's presence was necessary. From 8 o'clock until late tonight no one was in the house except a young friend of James G. Blaine, Jr., who was evidently sent for. There was no unusual activity about the house, but there was an air which indicated that Mr. Blaine was worse. The guarded utterances of the doctors especially were more significant from what they failed to say than from what they actually said.

Upon their departure about 10:30 p. m., from Mr. Blaine's residence, the physicians and that they would not return until late, but it seems that something must have occurred to change this program, as Dr. Hyatt returned to the house within fifteen minutes and is still there. To all outward appearance it looks as if both of the doctors will remain with Mr. Blaine all night.

About 7 o'clock Dr. Hyatt left the Blaine house. He said that the trouble which had occasioned a hasty summons of the physicians was the difficulty which the invalid experienced in breathing, the attendant supposed that the labored respiration was caused by an attack of heart failure. Dr. Hyatt said that upon examination the heart was found to be affected, the only way of relief being in respiration. Medicine was administered, to which the patient quickly responded, and the unfavorable symptoms, which had alarmed the family, passed away. Mr. Blaine is now resting quietly. Dr. Hyatt said that he would again visit the Blaine house between 9 and 10 o'clock tonight.

Uses Nitro Glycerine.

At midnight Dr. Hyatt was still in the house, and it was observed that he was there for the night or until relieved. Dr. Johnston, who was in the house, said that he would again visit the Blaine house between 9 and 10 o'clock tonight.

BLAINE FAILING.

His Physicians Are Hastily Summoned to His Bedside.

WASHINGTON, Jan. 12.—There has been no change in Mr. Blaine's condition since the afternoon visit of the physician. Mr. Blaine, it is said, has slept most of the day, and is resting comfortably. After the hour for closing the departments, quite a number of officials made inquiries at the door, among them were Secretary Root and Assistant Secretary Wharton of the state department. The Rev. Dr. Hamilton of the Church of the Covenant made a short call early in the evening. At 6:25 this evening messengers were hastily dispatched for both Drs. Johnston and Hyatt, ex-secretary Blaine's attending physicians. Young Mr. Blaine was also quickly summoned. This fact, taken in connection with evidences of unusual commotion about the family residence, led the little group of newspaper men, on picket duty to believe that Mr. Blaine had suffered a serious relapse. Both physicians promptly responded to the demand for attention and went at once to Mr. Blaine's bedside. After some twenty minutes spent in consultation, Dr. Johnston left the house. He stated that nothing of a positively serious nature had occurred, and that Mr. Blaine's condition was practically unchanged from that which had been during the day. He further stated that whenever any symptom developed that might be construed by Mr. Blaine's attendants as unfavorable, the physicians were immediately notified, but this did not indicate a change for the worse and was merely a phase in his condition which was not understood by those at his bedside. Dr. Johnston said that he would not make another call until 6:30 tonight. Dr. Hyatt remained after Dr. Johnston had departed, which fact served to strengthen the belief that Mr. Blaine was not so well.

Is He a Bruise?

OSKOW, Jan. 12.—Wesley Groat, a young man, has been arrested on a charge of assaulting a girl under 12 years of age. The girl has been in critical condition. A physician by an examination the other day learned that the girl had been injured some time ago, and then she made a confession, stating that Groat had threatened her life if she told. He was arrested and is in jail at Allegan.

Values His Arm.

SANITARY, Jan. 17.—Charles Hoefert, whose arm was torn off three months ago in Ayres & Co.'s planing mill, has brought suit against the firm for \$25,000 damages. It is said that an accident occurred in the planing mill, which will have to be paid for by the firm, but the name of the company cannot be learned. Hoefert will get a certain amount for his policy, but the extra amount sued for will be fought by the company.

Had Case of Swollen Head.

BAY CITY, Jan. 12.—A movement for the establishment of a greater Bay City, through the Union of Bay City, West Bay and the village of Essexville, is again on foot. This, if successful, will give the community at the lower end of the Saginaw river the prestige of being again the third city of Michigan, with a population of 100,000, pushing Grand Rapids for its position as next to Detroit.

Coal of Fire.

ANN ARBOR, Jan. 12.—The residence of Herbert A. Williams, teller of the Farmers' and Mechanics bank, was considerably damaged by fire early this morning. The fire caught from a defective chimney. Mr. Williams was awakened by a live fire which fell from the chimney and struck his neck. The loss is covered by \$2,000 insurance.

Supreme Court.

LANSING, Jan. 12.—The following cases are on in the supreme court for tomorrow: Nos. 48, 53, 54, 55, 56, 57, 58, 59, 60, 61.

Waiting for Mr. Smith.

WASHINGTON, Jan. 12.—The house committee on the library was to have met this morning and heard the testimony of Wellington Ford, ex-secretary of the library of the state department, in the matter of the charges made by the Washington Post against Henry Cabot Lodge and others. Mr. Ford is at present in Boston and the committee decided to await the arrival of a positive statement from William Henry Smith, the gentleman who is said to have been prevented from coming to the hearing by the department library before taking any further steps. The next meeting of the committee has not been agreed upon.

Democrats Victorious.

LITTLE ROCK, Ark., Jan. 12.—The general assembly in joint session canvassed the returns of the last state election this afternoon. The returns show that the democratic state ticket was elected. The speaker also declared amendments No. 2 to the constitution adopted. This amendment requires an elector to exhibit a poll tax receipt before he can vote at election. The populists in the house protested against the speaker's decision, but were defeated on a vote of 10 to 9. Mr. Fishback will be inaugurated governor Saturday afternoon at 2 o'clock.

John Is Improving.

SPRINGFIELD, Ill., Jan. 12.—Governor Altgeld was unable to leave the house today. Dr. Fowler, who was called to attend him, said that while there was indication of a serious illness, the governor must have absolute rest. He is worn out, and still suffering from the cold contracted ten days ago. The governor remained in bed until noon, and only his private secretary was allowed to see him. Yesterday it was feared he had pneumonia, and he had a labored attack during the night, accompanied with some fever.

The First Law of Nature.

This self preservation is acknowledged to be, and people who adopt the first law of nature, of disease a genuine medicinal safeguard, accredited by experience and the sanction of physicians, afford a happy illustration of the wisdom of the saying, in the health they restore and continue to enjoy. Among malades against the growth of which Hesther's Stomach Bitters affords efficient protection, diseases of the kidneys and bladder are usually with the most serious and great obstinacy when opposed by ordinary means. The Bitters can and will subdue them. No testimony is stronger than this, that the patient and persistently, the best results may be expected. This medicine also eradicates liver complaint, constipation, dyspepsia, malaria, rheumatism and nervousness.
